## EDUCATION

### Bachelor of Big Data Analysis

Astana IT University

Aug. 2020 – June 2023

Astana, Kazakhstan

## WORK EXPERIENCE

### Frontend Developer

Digital Government Support Center

December 2023 – present

Astana, Kazakhstan

- Developing a sophisticated web-based report builder, which significantly reduced staff labor costs and simplified processes in various departments.
- Creating interactive data visualization websites for various use cases, allowing departments to analyze data in real time.
- Using HTML, CSS, JavaScript, Typescript and React framework to build and manage frontend components.

### Python Developer

Digital Government Support Center

May 2023 – December 2023

Astana, Kazakhstan

- Utilizing **Python, Dash, and Streamlit** to develop full stack web application to increase the availability of government data to stakeholders.
- Optimized the ETL process for the government's data warehouse, enhancing data quality and accessibility.

### ML Engineer Intern

Nimbl Academy

September 2023

Astana, Kazakhstan

- Implemented a chatbot leveraging OpenAI's GPT-4 model to provide instant responses and assistance based on a knowledge base.
- Developed a multilingual speech-to-speech translation system, enabling seamless communication across different languages.
